

Poverty

Why are we committed?

Poverty is visible, it leaves scars, there is no way out on one's own. Hardship is painful and it affects the frail, children and elderly the most.

Gritli Schmied

13.01.1923 - 30.08.2022

More than 50 years ago, she started to alleviate the unspeakable need in small ways. In 1971, the association Indienhilfe was founded, and in 2005 it became a foundation.

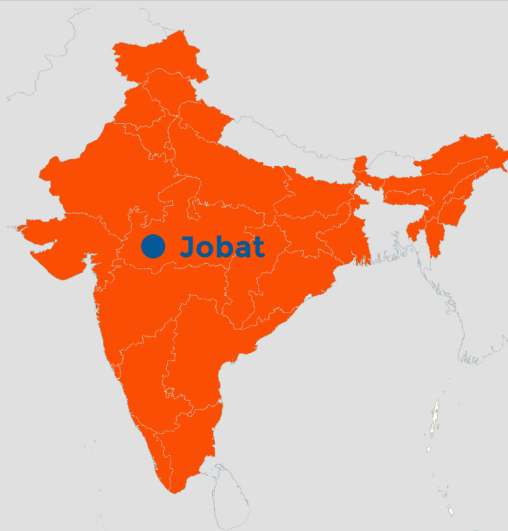

Where poverty reigns, health suffers, education comes up short, rights are ignored. We give people in poverty the chance to become independent and to help themselves. This is where we see change.

Jobat

Where do we operate?

Our commitment focuses on Jobat, a city in the State of Madhya Pradesh. Jobat is situated about 200 km from the west coast of India, between Mumbai and Delhi.
